

Print-Smart™ Display Media

Product: **Print-Smart 8 mil Ecoflex PolyPro**
Product Code: **AQ8 #320018**

Technical Data*

Finish	Matte
Caliper	8 mil
Film Material	White Polypropylene
Opacity	>90%

Characteristics

Ink Compatibility:	Latex, dye and pigment based aqueous inks
Printer Profile Settings:	Aqueous (photo paper) UV (Heavyweight coated up to 300% coverage)
Finishing:	Pressure sensitive vinyl laminates can be applied to increase the fade and abrasion resistance of the image. Before applying the laminate, allow the image to dry for 24 hours.
Water Resistance:	To obtain a high degree of water resistance, use only pigmented ink. Allow the print to dry for 24 hours before exposing to moisture. Lamination is not required. Ink saturation over 350% can affect the water-resistant properties and show ink bleed.

Our Print-Smart AQ Ecoflex Polypro is a premium, high-performing polypropylene film which resists curling. Ideal for economical trade show and display graphics. Bright white outdoor durable matte white surface and 8 mil base, this product prints and performs as well as many premium products without the higher cost.

Compatible with most aqueous printers including HP, Epson and Canon. Also compatible with Memjet Waterfall and HP Pagewidth print technology.

The above information is based on research believed to be reliable, but does not constitute a warranty. All material should be tested by the purchaser to determine suitability of the product for their purposes.
