Ink Compatibility:	Compatible with latex and UV-curable ink
Handling Instructions:	Use cotton gloves when you handle to avoid defects and hand prints. Wet application recommended for best results using rapid Tac.

Print-smart 6 mil Low Tack Window film is a one-step adhesive solution for window graphics.

6 mil Low Tack Window Film delivers a big impact with front and back light applications.

Reverse print to install on the inside of the window to protect the graphic that will be viewable from either side of the window – indoors or out.

Quick-dry polyester film has dimensionally stable, lay-flat construction that can stand up to lighting heat without shrinking or warping. Easy to install and remove without any residue left behind

The above information is based on research believed to be reliable, but does not constitute a warranty. All material should be tested by the purchaser to determine suitability of the product for their purposes.
